

# Litan®

Bamboo Charcoal Yarn

Litan® is a bamboo charcoal yarn, which naturally regulates humidity and stimulates blood circulation. Litan®'s anti-bacterial properties are enhanced by the addition of anti-bacterial nano materials during the polymerization process. Litan® inhibits bacteria growth, deodorizes and regulates humidity.

## Features

### Radiate FIR (Far Infrared Ray)

FIR enhances blood circulation & keeps warm.  
(Far infrared radiation rate: above 0.82)

### Regulate Humidity

The micro holes of the charred bamboo can regulate humidity effectively.

### Anti-bacterial Ability

Inhibit the odor (JIS L1902) & bacteria growth  
(Staphylococcus aureus/Klebsiella pneumonia 99% reduction).

### Deodorization

Deodorizing percentage more than 70%.  
(Deodorization for NH3)

## Application

Sports wear & leisure wear

Underwear & pajamas

Hat, scarf, gloves, and socks

Hometextile

Health care

## Specification

- DTY: 75/36/1 . 75/72/1
